PROFILE

I am a passionate **Frontend Developer** with a strong foundation in **HTML, CSS, JavaScript**, and responsive web design. I have experience building interactive and user-friendly websites, focusing on UI/UX design and performance optimization. I am continuously improving my skills by working on **real-world projects**, including an e-commerce website and other interactive applications. I am eager to apply my knowledge in a professional environment, collaborate with teams, and gain practical experience in frontend development.

PROJECTS

- E-Commerce Website 1 – Developed a feature-rich platform with product listings, **user authentication**, and **cart functionality**.
- E-Commerce Website 2 – Focused on **UI enhancements**, animations, and a seamless checkout process.
- Online Learning Platform – Built an interactive educational platform with course listings, video integration, and **user dashboards.**

ACHIVEMENTS

- Hackathon Participant (3 Technical Hackathons)
- Competitive Coding & Problem-Solving
- Fast-Paced Development & Innovation
- Agile Development & Rapid Prototyping

CERTIFICATES

- **Full-Stack Development** – Certified by Novi Tech, Coimbatore
- **Programming Logic & Problem-Solving** – Certified by Great Learning
- **Web Designing Certification** – Expertise in UI/UX, HTML, CSS, and responsive design
- **Technical Hackathon Participant** – Attended 3 Hackathons
